How to open the door to better hearing

BELTONE CHANGE MAKES BETTER HEARING EASY

Beltone Change helps you open the door to better hearing. No matter what room you're stepping into, it gives you everything you need to look good, feel good and hear better.

Beltone Change gives you the latest technology, wrapped in an easy-to-use package, so you can:

- **HEAR THE SPEECH AND SOUNDS YOU WANT**
- **HEAR BETTER WHEREVER YOU GO**
- **GET MORE CONTROL AND MORE FREEDOM**
- **CHOOSE THE RIGHT HEARING AID FOR YOU**

HEAR THE SPEECH AND SOUNDS YOU WANT

Beltone Change lets you focus on speech, while irrelevant background noise is reduced - to help you hear the relevant speech sounds. The exact level of sound amplification you need is adjusted automatically over time to meet your personal preferences without experiencing embarrassing whistling. Now that makes for a smooth transition.

HEAR BETTER WHEREVER YOU GO

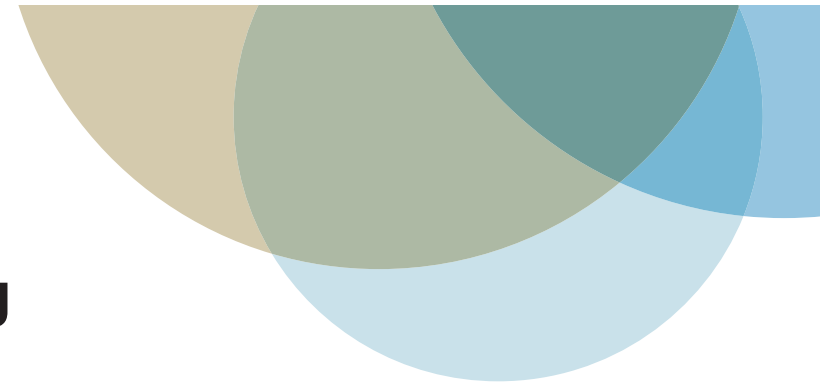

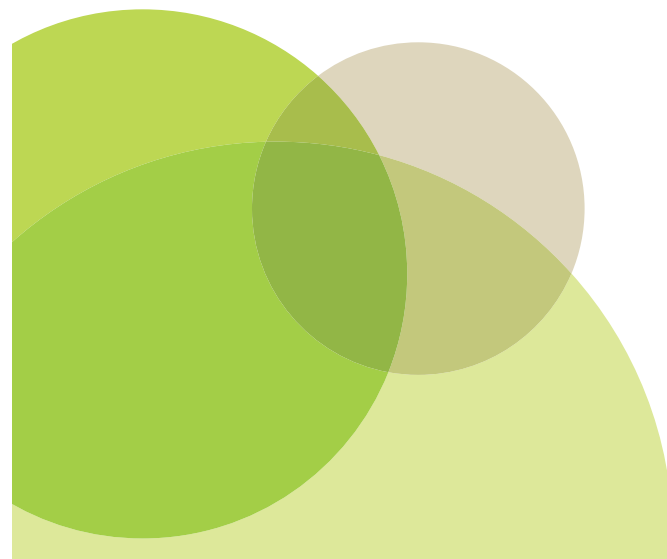

Your listening environments change as you move around during the day, so your hearing aids should adjust, too. Whether you're speaking quietly to someone, watching TV, at a party or on the phone, Beltone Change has the program or feature that fits the environment. The hearing aids will even record your preferred settings, making it easy for your Hearing Care Practitioner to fine-tune them to your specific needs.

GET MORE CONTROL AND MORE FREEDOM

Beltone Change puts you in control. An easy-to-use volume control is available for you to set as you please. And with longer battery life than comparable hearing aids, you don't have to worry about a thing.

CHOOSE THE RIGHT HEARING AID FOR YOU

Beltone Change offers a wide variety of hearing instrument models and a choice of colors, so you can choose the one that makes you feel the most comfortable and confident. The models are conveniently small, follow the contours of the ear and never get in the way. So, they always look and feel natural.

Beltone Change is available in our most popular shell styles:
